

RNS Client Rights & Responsibilities

Recovery Navigational Support (RNS) is an evidence-based, recovery-support service (RSS) delivered in twelve (12) structured sessions over a six-month term by peer workers known as *Recovery Navigators*. Navigators guide clients to complete REC CAP, a validated assessment instrument, and implement a personalized *Recovery-Care Plan* focused on measurably enhancing Recovery Capital.

RNS benefits clients who are actively engaged in community-based activities, including:

- Employment
- Vocational and/or higher education
- Recovery and/or mutual-aid group participation
- Recreational and wellness activities
- Community volunteerism

RNS Clients have the right to:

- Receive supportive and focused mentoring by a qualified navigator
- Punctual and attentive navigator-engagement through mutually-scheduled key-working sessions by the Peer and Navigator
- Have their voice honored throughout the recovery-care-planning process
- Confidential management of personal data and communications
- Access to their Recovery-Care Plan through the RNS Client Portal
- Complete RNS Orientation to fully inform their decision prior to executing this agreement

To maximize service benefit, clients are responsible to:

- Transparently and honestly complete REC CAP Assessments
- Punctual attendance at each scheduled key-working session
- Responsibly engage in recovery-care planning with navigator
- Responsibly engage in the development of a support network
- Participate in scheduled community events and activities
- Complete homework and goal-task assignments as agreed
